RIEL CLICK SYSTEM

48V-TECHNOLAMP

El riel click system es un sistema revolucionario el cual tiene como objetivo tener la gran facilidad de personalizarse.

Se puede intercambiar de posición los spots, luminarias lineales o luminarias descolgadas que hacen parte de esta familia para generar cualquier tipo de iluminación que se requiera.

El sistema funciona a 48V y para el perfil se puede escoger entre empotrar trimless (sin borde) y sobreponer.
